

Module 1 – Conditions for e-fulfillment services

Object	<ul style="list-style-type: none"> Logistical services required to market its Products to End Customers: receipt, placing in stock, storage, order preparation, packaging, delivery and return of Eligible Products; These specific conditions are in addition to those defined in the GTS; For the information purpose of the Marketplace Seller, to date, the e-fulfillment Services have been partly subcontracted by Weavenn to CEVA Freight Management France SAS and to the carrier(s) chosen by Weavenn for the delivery of Eligible Products to the End Customer
1. Definition of Eligible Product	<ul style="list-style-type: none"> Consumer Products (including small electrical appliances, electronic products and cultural products) referred to in Appendix 1.1. Eligible Products are classified into two categories: “<i>High Value</i>” and “<i>non-High Value</i>” Eligible Products according to the criteria (in particular their sale price) defined in Appendix 1.1.
2. Territory of delivery	<ul style="list-style-type: none"> Eligible Products ordered by the End Customer on Fnac Darty Digital Marketplaces: Metropolitan France (including Corsica). Eligible Products ordered by the End Customer on Digital Marketplaces other than Fnac Darty Digital Marketplaces: countries listed in Appendix 1.1. (Eligibles Products are then shipped from France to the countries listed in Appendix 1.1). Weavenn may extend the Territory.
3. Rates	See Appendix 1.1 for details of rates (storage, etc.), it being specified that rates for preparation, shipping and delivery are differentiated depending on whether the Eligible Products are ordered by the End Customer on Fnac Darty Digital Marketplaces or on Digital Marketplaces other than Fnac Darty Digital Marketplaces.
4. Information to be provided by the Marketplace Seller on its Seller Area concerning Eligible Products	<p>In addition to the information mentioned in article 9.1 of the GTS, the Marketplace Seller provides the following information about the Eligible Products it ships to the warehouse whose address is communicated by Weavenn on the Seller Area (hereinafter the “Warehouse(s)”):</p> <ul style="list-style-type: none"> class of Eligible Products; any forecast changes concerning the above information, as well as any legal or regulatory changes; where applicable, indication of the “<i>High Value</i>” category: Any error in the indication or request to change the category will result, in addition to the correction related to the application of the correct rate, in the invoicing of management fees, the amount of which is specified in Appendix 1.1. It is specified that Weavenn reserves the right to verify and reclassify the category of an Eligible Product by the Marketplace Seller, in particular in the event of inconsistency or incorrect categorization. This information is purely indicative and does not constitute a statement of value within the meaning of the legal provisions. <p>As part of the provision of Weavenn Services, the Marketplace Seller expressly authorizes Weavenn to collect data from the Digital Marketplaces relating to End Customer orders and the Eligible Products listed.</p>
5. Shipment of Eligible Product by the Marketplace Seller to the Warehouses	<p>5.1 Minimum number of Eligible Products per shipment and forecast:</p> <ul style="list-style-type: none"> The Marketplace Seller is solely responsible for the timing and management of supply; In order to avoid multiple shipments of small quantities of Eligible Products, the Marketplace Seller undertakes, for each shipment, to ship a reasonable number of Eligible Products. Upon receipt of the Shipping Notice, Weavenn may refuse to allow the Marketplace Seller to ship the Eligible Products if the quantities of Eligible Products are too small or too large, or of such a nature as to cause a risk to the security of the Warehouse. It is specified that Weavenn may impose programming restrictions and volume limitations on the delivery and storage of Eligible Products in the Warehouses. <p>5.2 Preparing for shipment:</p> <ul style="list-style-type: none"> Once Weavenn has confirmed the registration of Eligible Product references, the Marketplace Seller provides Weavenn with the requested information on his Seller Area, in particular the references of the Eligible Products it wishes to ship and their quantity, which constitute the Shipping Notice;

	<ul style="list-style-type: none"> Any missing information that may result in additional management costs for Weavenn will be billed to the Marketplace Seller; The Marketplace Seller undertakes to ship the Eligible Products, or to cancel the shipment, within ten (10) days of sending Weavenn the Shipping Notice for the Eligible Products in the Seller Area; The Marketplace Seller undertakes to ship the references and the number of Eligible Products as set out in the Shipping Notice; In the event of a positive or negative difference of more than 10% in relation to the quantities of Eligible Products announced in the Shipping Notice, Weavenn will invoice the Marketplace Seller for processing costs of around €45 (excl. VAT) per hour; In the event of a Product reference received by Weavenn but not announced in the Shipping Notice, Weavenn will invoice the costs relating to the creation of a new reference. <p>5.3 Liability and costs:</p> <ul style="list-style-type: none"> With regard to the shipment of Eligible Products to the Warehouses, the Marketplace Seller is responsible for ensuring that the carrier it selects complies with the "Product Delivery Guidelines" communicated on the Seller Area and in Appendix 1.3 and any additional information communicated by Weavenn. The Marketplace Seller is also responsible for complying with legal and regulatory obligations in the country of shipment and in France, as well as obligations related to its use of the Digital Marketplace; The Marketplace Seller guarantees that the Eligible Products are properly packaged and wrapped in such a way as to protect them against the risk of damage or deterioration during transport and storage, in accordance with the "Product Delivery Guidelines". The Marketplace Seller guarantees the suitability and resistance of the packaging to withstand all operations related to the e-fulfillment Services; The Marketplace Seller shall bear all costs incurred, including customs duties, taxes and any other charges, by the transport of the Eligible Products to the Warehouses and shall carry out the transport under its sole responsibility. The Marketplace Seller is solely liable for any loss or damage during transport, until the Eligible Products are placed in stock; The Marketplace Seller is responsible for customs clearance of Eligible Products prior to their arrival at the Warehouses.
<p>6. Reception of Eligible Products at Warehouses – Reserves</p>	<ul style="list-style-type: none"> Upon receipt of the Eligible Products, Weavenn systematically (i) checks the quantity of Eligible Products and their general appearance, and (ii) opens a sample to carry out a visual inspection of the Eligible Products; After this double check, the Eligible Products can be placed in stock and become Weavenn's liability; When an Eligible Product reference is first received, Weavenn checks its dimensions and weight. Only the dimensions and weights recorded by Weavenn are binding for all present and subsequent operations on the same Eligible Product reference; The Marketplace Seller shall inform the Weavenn of any change in the weight or dimensions of an Eligible Product reference or the packaging of an Eligible Product. Any such modification shall give rise to a new inspection, at the exclusive expense of the Marketplace Seller; Weavenn also reserves the right to carry out random checks on Eligible Products received, either on its own initiative or at the request of a government representative ; If the Marketplace Seller fails to comply with the "Product Delivery Guidelines" or with the instructions given by Weavenn, particularly with regard to packaging and safety instructions, Weavenn may, at its discretion: <ul style="list-style-type: none"> refuse to accept delivery of Eligible Products, without incurring any liability; deal with the non-conformity (labelling, packaging) at the exclusive expense of the Marketplace Seller; terminate all or part of the Weavenn Services; Weavenn informs the Marketplace Seller in his Seller Area of: <ul style="list-style-type: none"> receipt of the Eligible Products at the Warehouses; any disputes arising on acceptance and any reservations made in accordance with the provisions of article L133-3 of the French Commercial Code;

	<ul style="list-style-type: none"> ○ discrepancies between quantities expected and quantities received; ○ visible damage to the packaging of Eligible Products or to the Eligible Products themselves; <p>- Weavenn's refusal to accept delivery.</p>
7. Warehouse storage	<ul style="list-style-type: none"> • The Eligible Products of the Marketplace Seller are identified with an individual code, according to the information communicated by the Marketplace Seller; • Weavenn informs the Marketplace Seller in its Seller Area when Eligible Products are added to stock; • The lead times Dock to stock / From Reception until stock Putaway are as follows: <ul style="list-style-type: none"> - January 1 – September 30st : 2 working days; - October 1 – December 31st: 4 working days; <p>Regardless whether or not new product/SKU;</p> <p>This applies to inbounds received where the seller adheres to the delivery appointment they are requested to make at least 48 hours in advance.</p> <p>This applies to inbounds without anomalies [discrepancies between what is entered in the Weavenn BO and reality]. For example, wrong barcodes, wrong products, wrong descriptions, damaged products etc. will result in dock to stock be longer. In case of anomalies, the above dock to stock time does not apply.</p> • The Digital Marketplace is also automatically informed of the Marketplace Seller's stocks; • Weavenn guarantees the traceability of Eligible Products within the Warehouses. The Marketplace Seller hereby expressly accepts that its Eligible Products are stored in accordance with Weavenn's storage practices and may be freely placed and moved by Weavenn in the Warehouses. The Marketplace Seller also agrees that Weavenn may handle other customers' products in the Warehouses; • It is expressly stipulated that the location of Warehouses and the allocation of Eligible Products to a Warehouse are decided exclusively by Weavenn; • In this context, Weavenn guarantees that it is able to precisely identify the locations of Eligible Products within the Warehouses and that it is organised to avoid any incident or accident related to the presence of other customers and their products in the Warehouses during the provision of Weavenn Services; • In the event of a non-compliant or illegal product, Weavenn reserves the right to remove the batches of Eligible Products concerned from the Marketplace Seller's stock. The Marketplace Seller will take back this stock at its own expense; • Weavenn's liability in respect of the storage of Products is strictly limited to the terms of compensation set out in Appendix 1.2.
8. Additional services for the storage in warehouses of "High-value" Eligible Products	<ul style="list-style-type: none"> • When a Marketplace Seller declares an Eligible Product as "<i>High Value</i>", the following additional services are automatically applied at no extra cost: <ul style="list-style-type: none"> ○ Enhanced security storage: "<i>High Value</i>" Eligible Products are stored in a reinforced security cage ("<i>High Cage Value</i>") in the area dedicated to Weavenn. ○ Logistics prioritisation: "<i>High Value</i>" Eligible Products are processed as a priority upon arrival, with a guaranteed storage time of no more than 48 hours. ○ IMEI check: the IMEI number is systematically identified and verified upon receipt of the "<i>High Value</i>" Eligible Product. <p>These services are included in the rates applied to Eligible Products.</p>
9. Inventory – Shrinkage rate	<ul style="list-style-type: none"> • Weavenn carries out two types of inventory: <ul style="list-style-type: none"> - An annual inventory; - An inventory carried out on an ad hoc basis at the request of the Marketplace Seller and upon presentation of an estimate by Weavenn for validation by the Marketplace Seller. This estimate will be based on the hourly rate set out in Appendix 1.1 – line "Verification / Complaint / Intervention"). This inventory will be invoiced; • In order for the systems to function properly, the results of the inventories are transmitted by Weavenn to the Digital Marketplaces, which the Marketplace Seller accepts; • Weavenn is subject to a rate of shrinkage calculated between each of the annual inventories and representing the difference observed at the end of a given calendar year between (i) the

	<p>quantities of Products supposed to be held by Weavenn as they appear from the theoretical inventory carried out on the basis of information contained in the computer system used by Weavenn and (ii) those present in the Warehouses as they appear from the physical inventory carried out in the presence of both parties;</p> <ul style="list-style-type: none"> • The shrinkage includes the shortages resulting from the inventory discrepancy less the Products which have been the subject of compensation under the conditions defined in Appendix 1.2 "Compensation for loss or damage"; indeed, the Marketplace Seller shall not benefit from compensation under provisions of Appendix 1.2 and at the same time have the compensated Products taken into account in the calculation of the shrinkage; • The rate of shrinkage will be calculated according to the formula: (positive difference + negative difference) / volumes received during the calendar year in question = X %; it should be noted that, as a principle, positive and negative differences offset each other (in terms of both volume and value); • For this calculation, the differences in volumes recorded (positive and negative, making up the numerator) and the volume of all units received in the year in question (making up the denominator) will be valued in euros (at a hypothetical purchase value deemed to be equal to 50% of the selling price before taxes); • The tolerated level of shrinkage under which Weavenn cannot be held liable is 2%. • If the annual shrinkage rate is higher than the tolerated shrinkage rate, Weavenn will be invoiced for the missing purchase value of the Products in excess of the tolerated shrinkage rate (the value corresponding to the tolerated shrinkage rate is not invoiced to Weavenn under any circumstances). Being reminded that the purchase value of Products by the Marketplace Seller used for this calculation is not the actual purchase value (but a purchase value deemed to be 50% of the sale price before taxes - due to Weavenn's lack of access to the purchase price of Products by the Marketplace Seller), it is hereby specified that Weavenn may, at its sole discretion, request the Marketplace Seller to provide the corresponding proof of purchase and carry out calculations based not on a hypothetical purchase value but on the actual purchase value. If the calculation based on the actual purchase value results in a lower amount to be invoiced to Weavenn, then only this lower amount may be invoiced to Weavenn. In all other cases, the amount invoiced will remain that resulting from the calculation made with a purchase value deemed to be 50% of the selling price before taxes.
10. Preparation of orders placed by End Customers with the Marketplace Seller	<ul style="list-style-type: none"> • Weavenn prepares orders for Eligible Products placed by End Customers purchased from the Marketplace Seller; • Weavenn chooses the Warehouse from which it takes Eligible Products from stock; • As soon as Weavenn receives information about an End Customer's order for an Eligible Product in stock, it prepares the order for shipment within a maximum of twenty-four (24) hours. Weavenn reserves the right to adjust this lead time during Periods of peak activity ; • Weavenn packages the Eligible Products - according to the dimensions and weight of the Eligible Products - and labels the packages with the End Customer's delivery address entered in the Seller Area; • Weavenn declines all responsibility, in particular for delays in delivery caused by the incorrect or incomplete transmission of the information necessary for Weavenn to prepare and dispatch the order; • It is specified that additional services may be offered by Weavenn concerning order preparation and delivery, as listed in Appendix 1.1.
11. Delivery of Eligible Products to the End Customer	<ul style="list-style-type: none"> • <u>Reminder</u>: Delivery to End Customers of Products ordered by the End Customer on Fnac Darty Digital Marketplaces is possible in mainland France (including Corsica), from one of the Warehouses chosen by Weavenn as the place of dispatch. For Eligible Products ordered by the End Customer on Digital Marketplaces other than the Fnac Darty Digital Marketplaces, delivery to End Customers receiving Eligible Products is possible to the countries listed in Appendix 1.1 from one of the warehouses chosen by Weavenn as the place of shipment from France. • Weavenn is responsible for organising the delivery of Eligible Products (relations and contracts with carriers); • Delivery to End Customers is only possible for Eligible Products defined in Appendix 1.1;

	<ul style="list-style-type: none"> Depending on the delivery option selected by the End Customer with the Marketplace Seller, Weavenn will deliver the Products to the address provided by the Marketplace Seller: <ul style="list-style-type: none"> For any Eligible Product with a price less than or equal to €25 including VAT, delivery is made at the End Customer's choice; For all Eligible Products costing between €25 and €200 including VAT, delivery is made with tracking or against signature; For all Eligible Products costing more than €200 including VAT, delivery must be against signature; See Module 3 for the conditions when the Marketplace Seller has subscribed to Parcel Collection Services. In this case, the price list applicable to order preparation, packaging and transport (round trip) communicated in Module 3 shall replace the price lists relating to order preparation, packaging and transport communicated in Appendix 1.1. Weavenn is in no way involved in the pricing policy for deliveries invoiced by the Marketplace Seller to the End Customer. It is specified that the End Customer may request a delivery note from the Commercial Assistance Advisors; Weavenn undertakes to compensate the Marketplace Seller for Eligible Products lost or damaged during transport in accordance with the conditions set out in Appendix 1.2.
12. Claims and return of Eligible Products to Warehouses	<p>Insofar as necessary and in general, the Marketplace Seller expressly authorises Weavenn to issue, edit and transmit, on behalf of and for the account of the Marketplace Seller, to the Carrier or any interested party, proof of purchase based on data collected via the Digital Marketplace, in accordance with Article 9.1 of these GTS. It is clearly stated that in the event of a dispute over this proof of purchase by the Carrier or any interested party, the Marketplace Seller undertakes to provide the corresponding invoice in order to confirm the proof of purchase issued in its name and on its behalf by Weavenn.</p> <p>The Marketplace Seller undertakes to inform End Customers of the issuance of this document. The proof of purchase may include the following information:</p> <ul style="list-style-type: none"> Order date; Marketplace order number; End Customer's billing address; End Customer's delivery address; Product title, quantity, amount; Delivery costs; Name of the Marketplace Seller; Information on the legal guarantee of conformity; Price broken down into price excluding VAT and including VAT; Company Siret number; VAT number; Company address; Weavenn Fulfillment ID. <p>As part of Module 2 – Commercial Assistance Services [Reminder: only available for Eligible Products ordered by the End Customer on Fnac Darty Digital Marketplaces], Weavenn:</p> <ul style="list-style-type: none"> tracks orders for Eligible Products placed with End Customers; provides a service for managing customer returns of Eligible Products ordered by the End Customer on Fnac Darty Digital Marketplaces; <p>The returns management service is provided under the following conditions:</p> <ul style="list-style-type: none"> In cases where Eligible Products are returned at the expense of the Marketplace Seller, Weavenn will provide a prepaid label for the return of Eligible Products by the End Customer. The End Customer must affix the label to the parcel so that it is visible and drop it off at a depot of the service provider whose name Weavenn will specify to the End Customer; In the event of Eligible Products being returned at the End Customer's expense, the End Customer may choose his return service provider and his delivery centre; In the case of an Eligible Product requiring after-sales service or a return to the Marketplace Seller, the Marketplace Seller will deal directly with the End Customer's request; Eligible Products returned to the warehouse will be inspected on arrival;

	<ul style="list-style-type: none"> In the event of the return of an Eligible Product in new condition, the Eligible Product will be returned to the Marketplace Seller's stock.
13. Taking back, returning and/or disposing of Eligible Products	<ul style="list-style-type: none"> Weavenn may at any time require the Marketplace Seller to take back Eligible Products in the event of problems such as compliance alerts or safety alerts on Eligible Products, or risks of deterioration of Eligible Products; The Marketplace Seller may also demand the return of Eligible Products (subject to the exercise by Weavenn of its right of retention), or their disposal; In the situations mentioned above, the Eligible Products will be returned by Weavenn to the delivery address designated by the Marketplace Seller; Weavenn may also, under the conditions set out below, eliminate any Eligible Product that is unsuitable: <ol style="list-style-type: none"> Immediately if Weavenn determines, in its sole discretion, that the Eligible Product creates a risk to the safety, health or liability of Weavenn, its employees, subcontractors or any third party; Within thirty (30) days following notification to the Marketplace Seller if no request has been made for the return or disposal of the Eligible Products concerned; In this respect, the Marketplace Seller undertakes to notify Weavenn without delay of any request from the authorities to recall an Eligible Product or of any possibility of recall; The Marketplace Seller agrees to assist Weavenn with these procedures and remains solely responsible for all costs and expenses incurred by Weavenn in connection with these recalls (including the costs of return, storage, repair, disposal or delivery to the Marketplace Seller).
14. Additional services	<ul style="list-style-type: none"> Additional services linked to the provision of e-fulfillment Services may be subscribed to by the Marketplace Seller; The rates applicable to these additional services are shown in Appendix 1.1.
15. Adaptation of activity and closure	<p>During Periods of peak activity (e.g. Christmas, Black Friday, seasonal sales):</p> <ul style="list-style-type: none"> Weavenn reserves the right to adapt the deadlines; Weavenn reserves the right not to receive Shipping Notices from the Marketplace Seller by blocking incoming deliveries for a period of 15 days prior to the start of the Period of peak activity.
Module 1 appendices	<p>Appendix 1.1 : Eligible products and prices</p> <p>Appendix 1.2 : Compensation for loss or damage</p> <p>Appendix 1.3 : Product delivery guidelines</p>

Module 1
Appendix 1.1 – Eligible products and prices

1. Scope of Eligible Products	<ul style="list-style-type: none"> • Eligible Products ordered by the End Customer on Fnac Darty Digital Marketplaces: Eligible Products are those weighing less than 20 kilograms and measuring between 20 centimeters (width + length + height) and 200 centimeters. • Eligible Products ordered by the End Customer on Digital Marketplaces other than Fnac Darty Digital Marketplaces): Eligible Products are those weighing less than 30 kilograms.
2. Storage charges for Eligible Products	<ul style="list-style-type: none"> • The price of storing Eligible Products delivered to Weavenn by the Marketplace Seller as part of the e-fulfillment Service is calculated per Product reference and according to the storage volume in m3 (including packaging) of each Eligible Product reference and the number of days of storage; • The cost of storage is €0.83 before VAT/m3/day, as shown in the pricing schedule below. • The number of m3 occupied is established every day at 00h01. Any m3 occupied at this time will be billed for the entire day.
3. Prices for preparation, dispatch and delivery of stocked Eligible Products	<ul style="list-style-type: none"> • The price of the services for the receipt, preparation, dispatch and delivery of the Eligible Products stored is determined based on the following criteria: (i) the Digital Marketplace concerned, (ii) the total weight of the parcel, and (iii) the type of delivery for Eligible Products ordered by the End-Customer on Digital Marketplaces other than Fnac Darty Digital Marketplaces (Standard or Express). • The attached price lists are constructed and operate on the basis of these criteria. • With regard to the total weight of the parcel, the following terms and conditions shall apply: <ul style="list-style-type: none"> ◦ the base rate is calculated in accordance with the main price list in force, based on the total weight of the parcel. ◦ in the case of a parcel containing several Eligible Products, the base rate calculated according to the total weight of the parcel is increased by an additional amount for each additional Eligible Product included in the parcel. Additional Products are identified by removing the heaviest Eligible Product from the parcel. The surcharge is determined according to a second specific price list called “<i>Additional Product</i>” applied individually to each product beyond the first. This second price list is based on the weight of each additional product. • Example of calculation for the parcel weight criterion: For a parcel containing 3 Eligible Products, with a total weight of 5 kilograms, distributed equally (1.5 kg per product): <ul style="list-style-type: none"> - The base rate (main price list) applicable to a 5 kg parcel is €10.50 for a single Eligible Product in the parcel. - The two additional products, the lightest of the three (in this case, all the same weight), are charged according to the “<i>Additional Product</i>” rate, i.e. €4.00 per product weighing 1.5 kg. <p>Total price for the parcel = €10.50 + (2 × €4.00) = €18.50.</p> • With regard to the criterion of the delivery type, the main price lists and the “<i>Additional Product</i>” price lists contain the entries required to calculate the total price. The total price of the parcel calculated in this way also includes packaging consumables. • It is hereby reiterated that for Eligible Products for which the Marketplace Seller has subscribed to Parcel Collection Services, the applicable price list regarding the preparation, shipping and delivery (round trip) is that communicated in Module 3; it replaces all other price lists relating to the preparation, shipping and delivery of products.
4. Prices for managing returns and other services	<ul style="list-style-type: none"> • The price list applicable to these services is given below.

1. Price list for preparation, shipping and standard delivery (Products ordered by the End Customer on Fnac Darty Digital Marketplaces)

3. Price list for delivery per additional product (multi-product parcels)

Additional product weight	€ excl. VAT
0 to 1kg	+ 3
1 to 5kg	+ 4
5 to 10kg	+ 7
Over 10kg	+ 10

4. Returns management fees and other additional services

OTHER COSTS	
Prices in euros excluding tax (VAT and other taxes payable by the seller)	
Other expenses	Rates excl.
Cost of storage	0,83 / m3 / day
Non-contracted parcels (developed size over 200cms or over 30 kgs)	66 / unit
New product inspection	1.50 / reference
Return	4 / return
IMEI check in case of returns (i cloud account)	5 / check
Against Signature	0.78 / unit
Labelling	0.55 / unit
Repackaging	0.95 / unit
Non-compliant or too heavy pallet	10 / pallet
Stock layout	45 / hour
Checking/claims/intervention	45 / hour

Module 1
Appendix 1.2 – Compensation for loss or damage

1. Compensation for loss or damage to Eligible Products caused by Weavenn during storage of the Eligible Product (until taken over by the carrier)	<ul style="list-style-type: none"> • In the event of theft, breakage, loss or damage to an Eligible Product caused by Weavenn during the storage of the Eligible Product in the Warehouses, the Marketplace Seller is entitled to compensation limited to fourteen (14) euros per kilogram of gross weight of the missing or damaged Eligible Products; • In any event, Weavenn's liability is strictly limited to the aforementioned cases; • The amount of compensation will be deducted from the total amount of Weavenn Services invoiced by Weavenn to the Marketplace Seller in accordance with the terms and conditions set out in article 13 ("Financial Terms"), subject to the following provision: in order to take into account the time required to process files, this deduction will only be made 90 days after the Marketplace Seller's request for compensation.
2. Compensation for loss of or damage to Eligible Products caused during delivery of the Product to the End Customer (from the time of collection by the carrier)	<ul style="list-style-type: none"> • In the event of theft, breakage, loss or damage of an Eligible Product caused during the delivery of the Eligible Product to the End Customer, the Marketplace Seller may claim compensation limited to twenty-three (23) euros per kilogram, or the selling price of the Eligible Product (excluding tax and excluding shipping costs). The lower of the two amounts will then be used to determine the aforementioned compensation; • Weavenn's liability is strictly limited to cases of theft, breakage, loss or damage occurring during transport, or resulting from non-performance of delivery, with the exception of an address error communicated by the End Customer or the Marketplace Seller; • In any event, the amount of compensation payable by Weavenn will be limited to the stipulations of the "Code des transports" standard contract applicable to the case in question, if any; • The amount of the compensation will be deducted from the total amount of Weavenn Services invoiced by Weavenn to the Marketplace Seller in accordance with the terms and conditions set out in article 13 ("Financial Conditions "), subject to the following provision: in order to take into account the time required to process files, this deduction will only be made 90 days after the Marketplace Seller's request for compensation.

Module 1
Appendix 1.3 – Product delivery guidelines

weavenn

RECEIVING GUIDE

How to send products to any
Weavenn-enabled fulfilment centre?

Version 202406

Introduction

Receiving products provides the foundation for all other fulfilment centre activities.

To provide the best experience for your company, Weavenn utilizes a methodical, repeatable, and scalable receiving process. This allows the inbound operation to pre-assign storage locations, make better use of resources, and move inventory as efficiently as possible. By following this guide, you will help our operations team meet service levels for your receipts, ship to your end customers faster and avoid unnecessary charges, errors, or delays.

Who is this Receiving Guide intended for?

- ☑ Operations Managers
- ☑ Business Owners
- ☑ General Managers
- ☑ Customer Support Managers
- ☑ Personnel
- ☑ Transportation Managers
- ☑ Dangerous Goods Specialists

Before You Ship: Checklist

Follow this checklist to make sure your receipts follow our Standard Receiving Guidelines. Unqualified receipts that do not follow the guidelines can result in additional fees and are likely to take longer to be processed and inventoried.

If you have further questions, contact us at hypercare@weavenn.com.

Your checklist

- ☑ Ensure that all products in the inbound shipment, are uploaded in the **Product Catalog** in the Weavenn Merchant Portal:
 - **New Products:** If you send new products, make sure to upload and configure the new products in the Weavenn Merchant Portal before creating the inbound order.
 - **Dangerous Goods:** ensure that the right UN Code is applied if a product is Hazardous (for example, when the product contains a lithium battery). For each Lithium Battery Product, provide the respective UN38.3 Test Summary Report. Refer to the Dangerous Products section and Dangerous Goods Classes on page 10, 11, and 17.
- ☑ Create a Receiving Order (ASN) in the Weavenn Merchant Portal – 1 Shipment = 1 ASN

- ☑ Plan a shipment delivery appointment with the warehouse directly using hypercare@weavenn.com
 - If you already have a tracking number, ensure to provide it. If not, provide it once the appointment is scheduled.
 - Make sure to state/provide the ASN number, Bill of Lading and Dangerous Goods Declaration when at least one of the Lithium Battery product is not under SP 188 – which means that the Watt-hour rating is: > 100 Wh for each battery; or > 20 Wh for each cell.
- ☑ Ensure receiving will arrive with tracking or Bill of Lading (BOL) information.
- ☑ Properly label and package pallets, master cases, inner packs, and base product units.
- ☑ Properly label boxes containing dangerous goods following the guidelines in the Dangerous Goods section.
- ☑ Products and product counts in receiving must match those listed on the Receiving Order.
- ☑ Inventory must arrive free and clear of customs, duties, and tariffs, with correct Importer of Record and Tax ID information.
- ☑ Inventory arrives at warehouse at the prescheduled appointment date/time (varies based on location requirements).

Preparing Your Shipment

Getting ready to send your inventory to Weavenn fulfilment centres.

Packaging

To help you minimize cost and prevent unnecessary errors and damage, Weavenn offers specific guidelines for packaging inventory. All shipments will require a master packing list.

Important instructions

- ☑ Do not shrink wrap, strap, tape or bind boxes together
- ☑ If shipping on a pallet, do not allow boxes to overhang pallet by more than 2.5. cm (1 inch)
- ☑ All pallets must be shrink wrapped and less than 1.8m (55 inches) high. Use Euro pallets only
- ☑ Do not use any type of packing peanuts, crinkle wrap or shredded paper.

Master cases using cartons

Cartons are protective packaging used during inbound transit and receiving. Carton requirements are as follows:

If contents < 23kg. (50 lbs.), must use double-wall corrugation. If contents < 31kg. (68 lbs.), must use triple-wall corrugation. Must score a minimum 90 kg (200 lb.) on the bursting strength* test and 32 on the edge crush test*.

All shipments will require a master packing list.

*The ability of a carton to withstand pressure is measured by two tests. The bursting strength test measures the force required to rupture or puncture the face of corrugated cardboard and the edge crush test measures the ability of a carton to withstand the pressure of stacking.

Oversized and heavy products

Cartons or individual items greater than 51 cm (20 in) in any measurement (e.g., length, width, or height), and/or with weight greater than 12 kg (26 lbs.), are considered oversized.

Oversized cartons or items should be sufficiently packed to withstand pressure incurred during handling. They should be able to sustain being moved or handled with equipment including, but

not limited to forklifts, pallet jacks, clamp trucks, conveyors, hand trucks and sortation equipment.

Unpalletized or oversized items may incur additional receiving charges. Please contact hypercare@weavenn.com if you have any concerns or questions about your product.

Polybags and soft inner packaging

Soft packaging (e.g., plastic polybags) should be used as protection during shipment. Polybags can be used to protect products (e.g., apparel) during storage and outbound shipping to customers. We recommend following these packaging tips:

- ☑ If individual units are not stored inside cases, they should not be exposed in their display boxes. If there is an opening that shows the contents of a package, it should be shielded by transparent plastic to protect the product from dust.
- ☑ For apparel, use low-density, recyclable, polyethylene dry cleaning-style bags at least 1 mm (about 0.04 in) in thickness. Contents should be easy to remove from these bags.
- ☑ Plastic bags must comply with all European Union, federal, state, and local laws.
- ☑ Include a silica gel pack if your product is sensitive to moisture.
- ☑ Toys, and packaging associated with toys, are required to comply with the EU Toy Safety Directive and the risk of suffocation from plastic bags and sheets is recognized by the harmonized standard, EN71-1.

Fragile, glass or sharp products

Products or retail packaging susceptible to damage through ordinary handling, shipping or extended storage must be packaged so that they are strong enough to pass a 1.2 m (4 foot) drop test on a solid surface. Passing this test indicates that your products will be able to withstand typical impacts during shipping and handling without breaking. A typical drop test consists of five drops.

If your packaging can protect your product during these tests, it has passed the 4-foot drop test. Products must also withstand a full-minute vigorous shaking test without any of the contents breaking.

When shipping glass, breakable or sharp items, adequate packing should be used so the product will not break and create a potential safety hazard during storage, handling, or shipment to the customer. Do not use any type of packing peanuts, crinkle paper or shredded paper. Ensure barcode is scannable without opening or unwrapping the unit.

Hazmat products

Each hazmat product must accompany an SDS (Safety Data Sheet) document. For each Lithium Battery Product it is mandatory to provide a UN38.3 Test Summary Report.

For any products deemed as Hazardous Materials, such as lithium-ion batteries, flammable products, lighters, nail polish, hand sanitizer, aerosol cans and other products. These products have specific receiving, storage, and shipping requirements. See section Dangerous Products Labelling on Page 10 and 11.

Labelling

Labelling your product correctly is one of the single most important steps to start off your product's lifecycle in our facilities. Follow these guidelines to prevent unnecessary errors, delays, and fees. Any inbound shipments that do not comply with our labelling requirements will potentially be subject to additional fees.

Product labels

Products must be labelled with the base product's scannable barcode and quantity of product contained at each level of packaging (pallet, master case, inner pack, and base products). Compliant labelling allows our operations team to quickly determine the contents and quantity in each shipment, without needing to open master cases or inner packs.

Labelling Requirements

- ✓ Label must be a scannable barcode of the base product.
- ✓ The label must be white.
- ✓ Minimum font size: 12pt.
- ✓ Minimum label size: 2.5 cm x 0.6 cm (1 in x 0.25 in).
- ✓ Whitespace: 0.2 cm white space around border of label.

Proper labelling example

Pallet

The pallet has an ASN label, which includes the ship to/from addresses, ASN number and pallet number (e.g., pallet 1 of 4). A pallet can have multiple Master Cases of different products.

Master Case

The master case is labelled with the base product's scannable barcode (in this example, the single teddy barcode) and indicates the quantity of single teddies inside. You do not need to indicate the quantity of inner packs, just the total quantity of base products.

Inner Pack

The inner pack is labelled with the base product's scannable barcode (e.g., the single teddy barcode) and notes the quantity of single teddies inside.

Base Product

The base product is labelled with its scannable barcode. If scanned ID is different than the one printed on the product, provide it during the creation of the product.

Preferred labelling method

Scannable EAN barcode

Mixed Products

When you send products, you should not have more than one product type (SKUs) in master cases or in inner packs. If products are mixed, we will need to break down the shipment and you will incur fees.

Example: If a pallet contains different master cases of teddy bears, it meets packing standards. Each master case contains only blue, red, yellow, or green teddy bears on the pallet.

Dangerous Products

See page 15 on what Dangerous Goods types are authorized or not authorized.

To ensure safety and compliance, we have outlined regulations on the inbound and outbound shipment of potentially hazardous products. Boxes containing dangerous goods should be labelled with the right UN-Code label.

	Labelling	Example
Battery Only Under SP 188 < 100 Wh for <u>each battery</u> ; or < 20 Wh for <u>each cell</u>		
Battery Packaged with Equipment Under SP 188 < 100 Wh for <u>each battery</u> ; or < 20 Wh for <u>each cell</u>		

<p>Battery Contained in the Equipment Under SP 188 < 100 Wh for <u>each battery</u>; or < 20 Wh for <u>each cell</u></p>		
<p>Battery Contained in the Equipment Not under SP 188 > 100 Wh for <u>each battery</u>; or > 20 Wh for <u>each cell</u></p>	<p>1. Use UN-Approved labelling:  Letter "X" or "Y"</p> <p>2. Affix Label 9A on the packaging: </p> <p>3. Add the UN-Code corresponding to the product:  or </p> <p>4. Transporter or merchant to provide Dangerous Goods Declaration upon delivering the shipment to the warehouse and warehouse@weavenn.com</p>	

Small Products

If your item is too small for a label, it should be placed inside a polybag or a box large enough for a 2x1 inch barcode label. For example, if the product is a microchip, each microchip must be placed in a polybag and labelled with a 2x1 inch scannable barcode.

Non-Compliant Inbound Shipments

A streamlined inbound receiving process allows our operations teams to be as efficient as possible throughout your product's lifecycle. Compliant inbound shipments help our teams to make better use of resources, meet service levels and ship to your end customers quickly. Please review these common inbound shipping mistakes to avoid unnecessary charges, errors, and delays. Please email us for related fees associated with non-compliant inbound shipments: hypercare@weavenn.com

Missing or non-compliant

When an inbound delivery arrives at one of our warehouses, we need to be able to tie it back to your inventory in the Weavenn Merchant Portal. Each delivery, from small parcel to palletized, needs to arrive clearly marked with the associated ASN number.

Missing or non-compliant Product Labels

Whether you are shipping master cases, inner packs, or base products, all your products must be labelled with a scannable barcode product label. At each layer of your packaging, our operations team needs to be able to quickly determine the exact content and quantity without having to open the item. If the scannable product number contained in the barcode is different than the printed product number, please indicate both numbers in the product during its creation.

Floor Loaded Containers

While it may seem a better use of space to send boxes loose instead of palletizing your goods, the trade-off is additional fees to reconfigure your shipment and potential wait fees assessed by the driver delivering the shipments.

Discrepant Product

Help us help you to maintain inventory accuracy. Ensure that your outbound inventory matches the ASN information in Weavenn and that labelling complies with our standards. Follow the guidelines to avoid fees to count quantity and/or correct product discrepancies.

Mixed SKU master cases and/or pallets

To facilitate the receiving process and ensure accurate inventory management and outbound fulfilment, we cannot accept mixed master cases or inner packs. A pallet must have master cases that contain only a sole product. It is labour intensive to break down and sort mixed SKU master cases and inner packs; should this be necessary it will result in delays and fees.

Mis-packaged Product

To protect your inventory, we have strict regulations on how your product must be packaged to ensure proper handling and safe storage. We require specific pallet dimensions by location, and all pallets must be shrink-wrapped to ensure load integrity and stability during transit. See page 5 for details on how to package your inbound shipments.

Small Parcel Delivery

Small Parcel deliveries will incur a per case fee. If the small parcel delivery is of mixed SKUs, there will be an unpackaging fee per unit.

Remember

Every pallet (or master case if you are not shipping pallets) must have an ASN label.

Mixed master case shipments are non-compliant and will incur fees at receiving.

Every master case, inner pack and base product MUST have the base product's scannable barcode, as well as the quality of the base products at each packing level.

If product arrives without proper labelling expect delays and fees.

Sending Your Shipment

Shipping inventory to a Weavenn fulfilment centre.

Shipping to a Fulfilment Centre

Use your preferred carrier to send inventory to Weavenn fulfilment centres.

Providing tracking numbers

After you ship your inventory and receive a tracking number from your carrier, provide it during the registration of your inbound on your Weavenn Merchant portal.

Transportation Mode and Carrier Selection

A “shipment” is defined as all packages shipped from one location on one day to a single Weavenn facility (1 Shipment = 1 ASN). Incorrect mode selection and failure to consolidate freight collected shipments are subject to non- compliance charges.

Mode Decision Matrix – Small Parcel or LTL/TL

Shipment Size	Less than 14 Cartons	Greater than or equal to 14 Cartons
Less than or equal to Small Parcel Max Weight	Send Small Parcel	Send LTL
Great than Small Parcel Max Weight	Send LTL or HWA or TL	Send LTL or HWA or TL

Matrice de décision de mode – LTL ou TL

Shipment Size	Less than or equal to Pallet Max	Greater than LTL Pallet Max
Greater than Small Parcel Max Weight Less than or equal to LTL Max Weight	Send LTL	Send LTL
Great than Small Parcel Max Weight	Send LTL or HWA or TL	Send LTL or HWA or TL

Small Parcel Shipments

- ☑ Appropriate markings on each carton.
- ☑ Properly packaged to avoid damage.
- ☑ Reference the Weavenn Inbound order ID in the correct manifest field.

LTL or TL Shipments

- ☑ Palletized shipments must be shipped on EURO grade A or B pallets
 - Corner boards and proper shrink wrap must be used.
 - Appropriate markings on each carton and pallet and pallet build requirements.
 - UPC/EAN/Barcode
 - Properly packaged
 - Properly shrink wrapped
 - No overhang

- ☑ The Weavenn ASN # should be included on the BOL.

Appointment Scheduling

When sending shipments, please note specifics around scheduling an appointment based on the location you are shipping to. Each location varies, so review the information below to understand requirements, forms and any additional information needed for scheduling a delivery. The appointment should be sent to the following email address: hypercare@weavenn.com and confirmed. If less than 14 cartons, send the most accurate date that the products are going to be received to our warehouse customer care: hypercare@weavenn.com

Appointment and Scheduling Details

- ☑ Appointments are only held for 15-30 minutes, site dependent. A new appointment will be required should an appointment be missed.
- ☑ Pre-advice should be mentioned during the appointment.
- ☑ A confirmation email must be received from the warehouse manager.
- ☑ The pre-advice number must be visible and accessible on the parcel.
- ☑ Hazardous Materials must be noted prior to delivery appointment being scheduled
- ☑ Dangerous Goods must be noted prior to the delivery appointment being scheduled. These include damages, tampered packages, unsafe loads.
- ☑ If any portion of the shipment (ASN/PO) will be unavailable on the ship date, please call or email us ahead of time.
- ☑ Any floor loaded containers also require appointments following the appointment scheduling process by facility below. They are considered non-compliant and will incur fees.

Localisation France

All drivers conducting pickups or deliveries to French Weavenn facilities are required to present their current, unexpired drivers licenses and must be fully ADR ("Accord Européen Relatif au transport international des marchandises Dangereuses par Route") trained in case of transporting dangerous goods.

CEVA Logistics, Compans

For Weavenn

Address: 5 Rue Louis Blériot, 77290 Compans, Île-de-France, France

Max Pallet Height: 1.80 meters

Scheduling Hours (in Local Time): 10:00 to 16:00 | Monday – Friday

Contact Information: hypercare@weavenn.com

All palletized shipments require a delivery appointment which needs to be scheduled by the carrier.

Additional Information

International Receiving

If you are importing inventory, you need to clear customs and pay taxes and duties on inventory. To satisfy documentation requirements for a received shipment, you must provide the correct Importer of Record and Tax ID information and the receiving must arrive at the warehouse free of customs, duties, and tariffs. Failure to meet these requirements may result in inventory being denied and or additional fees charged.

Using Customs Brokers for International Shipping

It is recommended that you work with a customs broker to import inventory to minimize delays. Customs brokers will help you clear customs and meet international importing regulations.

Customs on Imported Goods

For customs and duties on imported goods, you must be the ultimate consignee and take responsibility for merchandise clearing customs. If you are not shipping the merchandise directly to Weavenn, be sure the shipper lists you as being responsible for customs duties. The merchandise we receive must be clear of customs duties to qualify for Standard Receiving.

If you have any additional questions on Receiving Requirements, please contact our Hypercare team: hypercare@weavenn.com

Dangerous Goods Classes

Authorized

CLASS	ACCEPTABILITY	EXCEPTIONS	EXAMPLE
Flammable Liquids	AUTHORIZED	Exception: the products or numbers following are forbidden. Substances that require transport at controlled temperature.	Mosquito spray, nail polish remover, perfume...
Flammable solids, self-reactive substances, and substances of the D classification code (Desensitized Explosives)	AUTHORIZED	Exception: the products or numbers following are forbidden: UN1204, UN2059, UN3064, UN3343, UN3357, UN3379	
Substances liable to spontaneous combustion	AUTHORIZED	Exception: the products or numbers following are forbidden: UN2794, UN2795, UN2800 (*) - Substances shipped in the molten state	Yellow & white phosphorus, Activated charcoal
Corrosive Materials	AUTHORIZED		Batteries, bleach...

Various Dangerous Goods	AUTHORIZED	Approval is required prior to Goods being shipped. Class 9 - Damaged or Defective Lithium Batteries (UN3090, UN3091, UN3480, UN3481) for transport by GROUND and OCEAN Banned Commodities Class 9 - Damaged or Defective Lithium Batteries (UN3090, UN3091, UN3480, UN3481) for transport by AIR Exception: UN1845 not authorized	Epoxy resins
Combustibles	AUTHORIZED		Chlorinated products for swimming Pool treatment...

Forbidden

CLASS	ACCEPTABILITY	EXCEPTIONS	EXAMPLE
Organic Peroxides	FORBIDDEN	Exception: the products or numbers following are forbidden: - Substances requiring temperature regulation - Materials presenting a risk of class 1 - Worms to and from the United Kingdom and Ireland	Bleaching agents, hardeners for glue.
Explosives	FORBIDDEN	Exception: the following numbers are authorized: UN1057, UN3150, UN3167, UN3479, UN3487. Approval is required prior to Goods being shipped Class 1 Explosives (Except 1.4) + Class 3 & 4.1 desensitized explosives	Lighters, small gas refills, aerosols...
Flammable Gases	FORBIDDEN	UN1950 classification code F and FC, UN2037 classification code F (non-toxic)	
Non-flammable / Non-toxic Gases	FORBIDDEN	Exception: the following numbers are authorized: UN1002, UN1044, UN2073, UN2857, UN3164, UN1013.	Gas extinguishers, small gas cartridges...
Substances which, in contact with water, emit flammable gases	FORBIDDEN		
Toxic Gases	FORBIDDEN	UN2037 classification code A / O (non-toxic)	
Toxic Substances	FORBIDDEN		
Infectious Substances	FORBIDDEN		
Radioactive Materials	FORBIDDEN
