Module 4 – Terms and Conditions for Inbound Priority Service	
Object	• To provide priority treatment upon receipt of Eligible Products at the Warehouses for: - The physical receipt of Eligible Products; - Standard quantity and quality checks. It is expressly stated that the Inbound Priority Service is intended to speed up these checks whilst complying with the standards set out in the GTS. Any request for an in-depth inspection shall be subject to agreement between the Parties and additional invoicing; - Stocking; - Make the stock available for sale.
1. Definition of Eligible Products	• Eligible Products are the same as those in Module 1, namely: - Consumer Produtcts (including small household appliances, electronic goods and cultural products) as set out in **Appendix 1.2 of Module 1;** - Eligible Products are classified into two categories: '*High Value*' and '*non-High Value*' Eligible Products, according to the criteria (in particular their retail price) set out in **Appendix 1.2 of Module 1.** • Except for new SKUs (products never previously stocked, unlisted SKUs), which are expressly excluded from the Inbound Priority Service.
2. Marketplace Seller Eligibility and Commitments	• The Inbound Priority Service is available only to Marketplace Sellers who: - Hold an active account on the Seller Area; - Are up to date with all their payments; - Comply with all the obligations set out below. • To be eligible for the Inbound Priority Service, the Marketplace Seller undertakes to: - Correctly declare their shipments and create the arrival notice in the Seller Portal (hereinafter the "**ASN**") in accordance with the GTS; - Comply with the logistics requirements applicable under the GTS (labelling, packaging, parcel compliance, ASN, etc.); - Provide accurate information on the quantities and SKUs to be covered by the Inbound Priority Service; - Not to dispatch any undeclared goods or goods that do not correspond to the ASN; - To inform Weavenn without delay of any changes to the arrival date, volumes or contents of the ASN; - To pay the price of the Inbound Priority Service in accordance with the price list set out in Article 6 of this Module. • Any request from the Marketplace Seller must be made prior to the arrival of the Eligible Products, via the Seller Area or any other channel previously approved by Weavenn, specifying the ASN, the estimated date of arrival, the SKUs and the quantities concerned.
3. Mandatory confirmation by Weavenn	• Any request from the Marketplace Seller must be expressly confirmed by Weavenn, which must specify: - The scope accepted by Weavenn (ASN, SKU, quantities, etc.), depending on its available operational capacity and the volumes declared by the Marketplace Seller; - The price corresponding to the accepted scope, determined on the basis of the pricing table set out in Article 6 of this Module. • In the absence of express confirmation, shipments will be processed in accordance with the standard terms and conditions as defined in the GTS. • Any breach by the Marketplace Seller of its obligations may result in Weavenn refusing or returning the goods, or processing them as standard shipments, at Weavenn's discretion. In such cases, Weavenn shall inform the Marketplace Seller of the breaches identified and, where possible, of the goods excluded from priority processing. • Weavenn may also refuse a request for priority treatment under the Inbound Priority Service or suspend the acceptance of new requests in the event of exceptional operational overload. Where applicable, Weavenn shall inform the Marketplace Seller accordingly.

	• Weavenn's acceptance of a request does not constitute a commitment to accept future requests. Any substantial increase in volume or change to the ASN following confirmation must be subject to further confirmation by Weavenn.
4. Weavenn's commitments	• Provided that the access and eligibility conditions set out in Article 2 of this Module are met, Weavenn undertakes to: - Treat expressly accepted ASN Eligible Products as a priority, in accordance with the terms and scope of the written confirmation sent by Weavenn to the Marketplace Seller; - To put Eligible Products into stock no later than the end of the working day following their compliant receipt (D+1) (hereinafter the '**Target Timeframe**'), subject to compliance with the conditions set out in Article 2 of this Module and the cut-off time for receipt defined by Weavenn and communicated to the Marketplace Seller; - Notify the Marketplace Seller of key milestones (receipt, discrepancies, stocking); - Provide operational support to the Marketplace Seller in the event of any issues; - Include in the invoicing statement the number of Eligible Products accepted and for which the Inbound Priority Service was provided, as well as the dates of receipt and stocking. • Starting point of the Target Timeframe: the time of physical receipt recorded by the Warehouse, provided that the ASN has been accepted and that the conditions set out in Article 2 of this Module are met. The applicable working days, working hours and reception windows are those of the relevant Warehouse, as communicated to the Marketplace Seller by Weavenn. Products received after the cut-off time for reception are deemed to have been received on the following working day. • Nature of the commitment: compliance with the Target Timeframe constitutes an obligation of means on the part of Weavenn and not an obligation of result.
5. Events affecting the Target Timeframe	• Events affecting the Target Timeframe beyond Weavenn's control: - In particular, Weavenn shall not be obliged to meet the Target Timeframe where the priority treatment of Eligible Products is delayed or prevented by an event beyond Weavenn's control, notably in the following cases: o Delay attributable to the carrier; o Administrative or customs blockage; o Events attributable to the Marketplace Seller, in particular any irregularities affecting Eligible Products (damaged, non-compliant or incorrectly labelled products), exceeding the declared volumes, or the dispatch of Products not declared in the ASN accepted by Weavenn; o Force majeure events meeting the conditions set out in the GTS. - Weavenn shall systematically inform the Marketplace Seller of the cause of the delay and, where possible, the conditions under which processing will resume. - Where such events prevent the priority treatment of Eligible Products under the Inbound Priority Service, the Products may be processed in accordance with the standard workflow set out in the GTS. - The consequences of these events on invoicing are set out in Article 7 of this Module. • Events affecting the Target Timeframe attributable to Weavenn: - A capacity constraint or internal operational saturation at Weavenn does not, in itself, constitute a force majeure event within the meaning of this Article and the GTS. - Where failure to meet the Target Timeframe is attributable to Weavenn, the consequences for invoicing are set out in Article 7 of this Module.
6. Prices	• Peak Periods: 'Peak' periods (hereinafter '**Peak Periods**') include Christmas, New Year, Black Friday, the start of the new school term and seasonal sales. The exact dates of the Peak Periods are defined each year by Weavenn and communicated to the Marketplace Seller. Weavenn shall confirm the Peak Periods and the applicable rate to the Marketplace Seller at the time of acceptance of their request and prior to any priority processing under the Inbound Priority Service. • Prices: - Outside Peak Periods: **€0.50 excl. VAT** per unit of Eligible Product accepted and actually processed under the Inbound Priority Service;

	- During Peak Periods: **€0.80 excl. VAT** per unit of Eligible Product accepted and actually processed under the Inbound Priority Service. • The fee for the Inbound Priority Service is in addition to the standard charges applicable under the GTS, which remain payable in full. • No additional charge is applied to units of Eligible Products not accepted by Weavenn under the Inbound Priority Service.
7. Failure to meet the Target Timeframe	• In the event of failure to meet the Target Timeframe: - Where this is due to an event beyond Weavenn's control, as referred to in Article 5 of this Module, the Inbound Priority Service will be invoiced. - Where it is attributable to Weavenn, in accordance with Article 5 of this Module, the Inbound Priority Service shall not be invoiced. If the Inbound Priority Service has already been invoiced, Weavenn shall issue a corresponding credit note. • The standard charges set out in the GTC shall remain applicable in all circumstances.
8. Billing statement and payment	• Invoices are drawn up on the basis of a statement for each ASN, setting out the Eligible Products, the applicable rate depending on Peak Periods and, where applicable, any adjustments made by Weavenn. • The payment terms and conditions are as set out in the GTS.
9. Data and Privacy	• Information relating to ASNs, volumes, Eligible Products and the performance of the Inbound Priority Service is subject to the provisions of the GTS regarding confidentiality and the protection of personal data. • Weavenn may use aggregated and anonymised data to improve its processes, subject to compliance with applicable regulations and the provisions of the GTS.
10. Liability	• The Parties' liability remains governed by the GTS. • However, Weavenn's liability in respect of breaches specific to the Inbound Priority Service alone is capped at the amount invoiced to the Marketplace Seller for the Inbound Priority Service over the last twelve (12) months.
11. Cancellation, amendment, suspension	• The Inbound Priority Service is provided on an ad hoc basis. Each request must be made specifically for an ASN and must be expressly accepted by Weavenn, in accordance with Article 3 of this Module. • An accepted request may only be cancelled or amended with Weavenn's consent, particularly where operational processing has already commenced. • Weavenn may suspend the acceptance of new requests in the event of a breach by the Marketplace Seller of its obligations under the Contract (in particular, failure to pay, non-compliance with logistics rules or exceeding the advertised volumes). Weavenn shall inform the Marketplace Seller of any suspension and of the treatment applied to ASNs that have already been accepted.
